Meal #3

Lunch

Chicken Breast & White Rice

1. Steamed/Boiled White Rice (100g cooked)

Calories: 130 kcal Protein: 2.5g
Carbs: 34.5g Fat: 0.2g

2. Chicken Breast (200g)

Calories: 330 kcal Protein: 62g
Carbs: 0g Fat: 7.2g

Chicken breast and White rice are a classic go-to meal for anyone serious about their diet. It's simple, easy to prepare, and packed with benefits.

Chicken breast is lean and full of protein, making it great for building and repairing muscle without adding extra fat. White rice gives you quick-digesting carbs, perfect for fueling up and recovering from workouts.

Together, they make a balanced, satisfying meal that's great for both muscle gain and fat loss.
