ANNUAL OPERATING PLAN

FY 2026–27

Strategic Growth Roadmap · April 2026 – March 2027

MODEL
Stability-First, Scale-Later

MARGIN
35% Profit Retention

TARGET BY MAR'27
₹35–40L/month

DIGIDARTS

FY 26–27
FISCAL YEAR

Business Model & Strategy

FOUNDATION

35%

Profit Margin Retained

Core margin model underpinning every revenue decision this year

65%

Paid to Publishers

Publisher-first economics ensuring strong supply-side partnerships

₹8.75L

April Profit Target

Recovery baseline from ₹22–25L topline in Month 1

Phase 1 — Repair
Activate pending links, relaunch paused campaigns, re-engage lost publishers. Eliminate execution gaps.

Phase 2 — Stabilize
Consistent ₹20–25L topline with no operational delays. Hire delivery intern to remove bottlenecks.

Phase 3 — Scale
Controlled expansion via new publishers, deeper campaigns, and improved fill rates from Q2 onwards.

QUARTER 1

Recovery & Stabilization

April – June 2026

APRIL 2026
₹22–25L topline

MAY 2026
₹23–27L topline

JUNE 2026
₹25–28L topline

Priority Actions

🔗 Activate all pending campaign links
April focus — no growth until execution gaps are closed

🔄 Relaunch paused campaigns & re-engage lost publishers
Rebuild supply pipeline before adding new scale

👩‍💻 Onboard delivery intern in May
Owns campaign setup, publisher onboarding & daily ops

💡 **April is a system repair month, not a growth month. Success = eliminating execution gaps. ChinaJoy attendance conditional on hitting stable ₹20–25L in both April & May.**

QUARTER 2 · CONTROLLED GROWTH

Scaling Begins

July – September 2026

Q2 PEAK TARGET
₹30–35L

July 2026

₹27–30L

Structured scaling begins. Identify top campaigns, strengthen publisher relations, build growth pipeline.

August 2026

₹30–35L

Continued scaling with stable execution, improved approval rates, reduced manual dependency.

September 2026

₹30–35L

Stable, scalable state achieved. ChinaJoy impact starts reflecting in publisher growth & traffic.

🎮 CHINAJOY

Jul 31–Aug 3, 2026 · Major supply-side event for gaming, SDK traffic, OEM distribution & publisher networks. Conditional on Q1 stability being achieved.

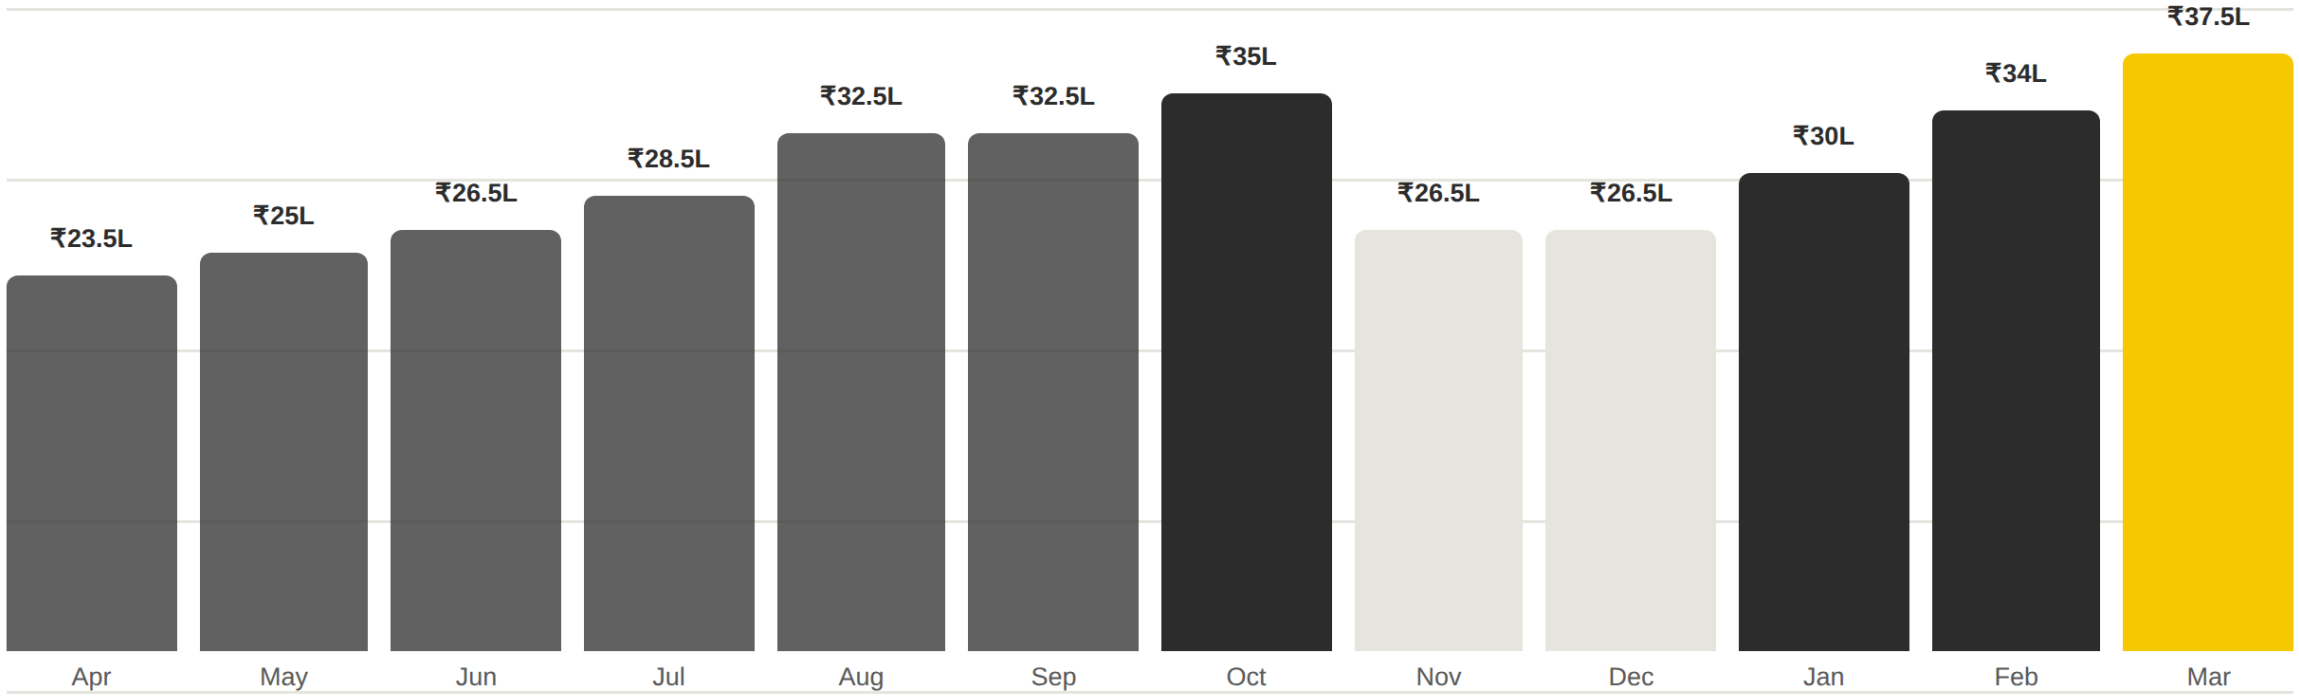
₹3.4L
2-person cost

10–15
New publishers

+15–25%
Traffic uplift

Revenue Projection — FY 2026–27

Monthly topline midpoint (₹ Lakhs) · 35% margin model



Starting Topline (Apr)	₹23.5L
Peak Target (Mar '27)	₹37.5L
Annual Growth	+60%
Full-Year Profit Est.	~₹1.2Cr

Q3 & Q4 — Managing the Cycle

October 2026 – March 2027

Q3 · SCALING + SEASONAL DIP

October 2026 Scale + ChinaJoy impact	**₹32–38L** PEAK
November 2026 Seasonal dip begins	**₹25–28L** DIP
December 2026 Utility & e-commerce focus	**₹25–28L** DIP

⚠️ Nov–Dec dip is natural (gaming/fintech budget cuts). Mitigate by onboarding utility & e-commerce campaigns and maintaining strong fill rates.

Q4 · RE-ACCELERATION

January 2027 System mature, exec streamlined	**₹28–32L** ↑ GROWTH
February 2027 Improved advertiser pipelines	**₹32–36L** ↑↑ GROWTH
March 2027 Full operating cycle complete	**₹35–40L** 🎯 TARGET

✅ Q4 transitions Digidarts from recovery-driven to a **structured, scalable affiliate network** with balanced execution, supply & demand.

The Three Growth Levers

Core drivers of Digidarts' FY26–27 performance

Execution Speed = #1 Priority

01

Supply Expansion

Publisher onboarding and diversification across verticals. ChinaJoy as a catalyst for 20–40 new publishers with 5–10 high-quality contributors.

02

Demand Expansion

Campaign growth across Fintech, iGaming, Crypto, Food Delivery, and Entertainment. Increasing campaign depth and improving fill rates.

03

Efficiency Gains

Better approval rates, faster campaign launches, reduced manual intervention. Intern drives 10–15% efficiency gain in revenue operations.

Delivery Intern — High-Impact, Low-Cost Investment

Takes ownership of campaign setup, publisher onboarding, link creation & daily ops — freeing core team to focus on scaling strategy.

₹15–20K
PER MONTH

COST STRUCTURE

Fixed Costs & Investments

Technology (tracking, fraud tools, infra)	₹90K/mo
Delivery Intern	₹15–20K/mo
ChinaJoy (conditional · 2 persons)	₹3.4L one-time
ChinaJoy as % of April Profit	~39%

PATH TO ₹35–40L

- Fix execution gaps early in April — repair before scale
- Hire intern in May to unlock 10–15% efficiency gain
- Attend ChinaJoy only after confirming Q1 stability
- Maintain 35% margin discipline through all 12 months

FY 26–27 Final Target

₹35–40L/month

Full-Year Profit Est.

~₹1.2 Crore
